

GO MAGNETIC

NEW & IMPROVED MAGLOCK 2.0

**INTRODUCING THE NEWLY DESIGNED
LOW PROFILE, NO BATTERY MECHANICAL**

The MAGLOCK eases the frustration of donning a pin lock liner for patients K1 to K3. The MAGLOCK is developed to delivery up to 90lbs of adhesion.

The large distal target allows the patient to be 10 degrees off center and still achieve suspension. The ultimate product for patients who have dexterity issues, issues with pin alignment, requires a caregiver and much more.

** Patent Pending*

P/N	Product Description	Weight Limit	Product Weight	Build Height	Suspension Strength
3180M	Mechanical Maglock	136kg / 300lbs	278g / 0.6lbs	2.2cm / 0.87in	90lbs

DISTAL CAP Converter for all pin liners

Cap converter with 10 mm thread for all pin liners. The distal cap converter is required for use with other liners in order to be compatible with the MAGLOCK.

P/N REPLACEMENT PARTS

DSTC Distal Cap Converter for all pin liners

Fabrication Dummy for MAGLOCK

Comes with different sized silicon rings for casting over a MAGLiner or when using the Distal Cap converter for a locking liner. These rings provide the perfect spacing and alignment of the MAGLOCK.

P/N REPLACEMENT PARTS

3180-1M Dummy for MECHANICAL MAGLOCK

TRANSTIBAL MAGLiners

PREMIER & HYDRO

MAGLiner - Premier

This premium liner is designed for the health of the residual limb and ease of donning. The Premier liner is manufactured with mineral oil embedded Platinum cured medical grade silicone and sheathed in a seamless durable fabric. The matrix which is built into the liner prevents distal elongation.
6 Month warranty

3040-26.5	MAGLiner Premier, 26.5		

* Using the MAGLINER with the MAGLOCK offers the lowest profile possible.

MAGLiner - Hydro

The Hydro MAGLiner's silky smooth Platinum cured medical grade silicone liner has the unique ability to repel water. This hydrophobic property makes the Hydro the easiest and fastest liner to clean and sanitize. The matrix which is built into the liner prevents distal elongation. The Parylene® surface reduces surface friction between the liner/skin and liner/socket for better comfort and donning. The Hydro MAGLiner reduces skin shear for fragile skin and will help with blister reduction. The Hydro Skin offers proprietary donning and doffing strips to aid the patient in easier application/removal. It is suitable for moderate to high activity patients who require cushioning over sensitive areas in the socket. The Hydro Skin liner's opaque pigment gives a natural "skin tone" to all ethnic skin types.
6 Month warranty

* Using the MAGLINER with the MAGLOCK offers the lowest profile possible.

MAGLiners, PREMIER & HYDRO are designed exclusively for the MAGLOCK Suspension System. The MAGLOCK eases the frustration of donning a pin lock liner for patients K1 to K3. The MAGLOCK is developed using a rare earth magnet which achieves up to 90lbs of adhesion. The large distal target allows the patient to be 10 degrees off center and still get suspension.
