Sample Configuration:

1. Application
The 1705T Female Rotating Receiver Clamp is designed to work in conjunction with the EZ Adapt Series. This component has the unique ability to adapt to any configuration of alignment necessary for the lower extremity prosthetics. The 1705T is designed to give a female receiver and rotation when LP and 1725T. Set screws should be torqued and thread locker applied after alignment is complete.

2. Description
The Female Rotating Receiver Clamp is a female receiver designed to thread onto the EZ adapter series. This titanium adaptor gives the ultimate advantage in strength and versatility when space is limited. This light space saving device also gives the added benefit of rotation.

3. Warranty
Warranty applies only when the product is used as intended without modification, following all manufacturer's recommendations. ST&G offers a 2 year warranty on this work in conjunction with the EZ Adapt Series. This component has the unique ability to adapt to any configuration of alignment necessary for the lower extremity prosthetics. The 1705T is designed to give a female receiver and rotation when LP and 1725T. Set screws should be torqued and thread locker applied after alignment is complete.

4. Environment:
Store at room temperature, and avoid extremely hot, cold, or moist storage environments
Storage Temperature Range: between temperatures of -20°C to 80°C [-4°F and 176°F]

5. Declaration of Conformity
ST&G as manufacturer declares that the 1705T, Female Rotating Receiver Clamp, conforms to the requirements of Council EU 2017/745 (EU). ST&G products are manufactured by another user for whom it was not originally manufactured and tested for a particular weight and activity impact level. Use may cause injury and voids any written or implied warranty, or liability. The liability shall fall upon those that resale/provide the product to anyone other than the original user delivered to.
